

Website Report

Connie Bunch was the webmaster in 2019 using Go Daddy.com domain. At an executive board meeting, it was decided to switch to AMBA, who volunteered to manage the website. Connie would send them information, but they were slow to update the website. Bill Kluckhohn volunteered to work with AMBA and learn how to manage and update the website. The site is now updated within a few days of new information being sent to Bill. It includes state and local unit information as well as pictures submitted by individuals.
