

Legislative report: August 2020

It is essential in these puzzling and difficult times that we all remain diligent in paying attention to our national and state governing bodies. Some issues at the national level:

Voting, mail-in ballots (idahovotes.gov), voting rights

Protecting Social Security

Relief for those economically challenged by Covid-19

and so many others

Please contact your senator and representative to let them know that their actions are important, and share with them your concerns.
