

The webpage has been up and running for some time now. Thank you for all the information that some of you have sent. It is your webpage and should reflect what you would like on it. Each unit has their own individual page. You can send pictures, articles, news, etc. to be added for your members and others to enjoy. Any article you send to the GEMS can also be included on this page by sending it to me. Please send information in PDF format or as a word document and pictures as jpegs attached to an email.
